

Gastech

Conference & Exhibition

MAKUHARI MESSE CHIBA | TOKYO | JAPAN

4-7 APRIL 2017

HOSTED BY:

**Japan
Gastech**
Consortium

GASTECH CONFERENCE CALL FOR PAPERS 2017: A GUIDE TO SUBMITTING YOUR ABSTRACT

THE CONSORTIUM MEMBERS:

Jera

 **Mitsubishi Corporation**

mitsui & co.

 **TOKYO GAS**

INPEX

ITOCHU
ITOCHU Corporation

JAPEX

 **JX Group**

Marubeni

 **Sumitomo Corporation**

OFFICIAL KNOWLEDGE PARTNER

 **Wood Mackenzie**

GASTECH 2017 CONFERENCE CALL FOR PAPERS – THE COMPLETE GUIDE TO HOW THE PROCESS WORKS

WHAT ARE THE TOPICS FOR CONSIDERATION WHEN I SUBMIT MY PAPER?

While the conference will continue to showcase a mix of commercial and technical streams, the Governing Body have made the decision to expand the number of technical papers to reflect the wider needs to the global gas & LNG industry's needs.

TECHNICAL STREAM

Engineering, Procurement & Construction	LNG Shipping & Liquid Cargo Handling	LNG Ship Building & Design	Small-Scale LNG & Infrastructure	Floating LNG
New / Innovative Gas & LNG Technology	Health, Safety, Security & Environment: People	Health, Safety, Security & Environment: Infrastructure	Operations, Maintenance & Asset Integrity	Digital & Data Management
Smart Grids: Applications & Communities	Fuel Cell / Battery Technology & Utilisation	LNG & Gas for Transport: Bunkering & Infrastructure	LNG & Gas for Transport: Fuels & NGV	Gas-Fired Power Generation & Technology
Transmissions Systems & Pipelines	Gas & LNG Storage & Containment	Gas & Shale Exploration & Production Technology		
Coal-Bed Methane & Coal Gasification	LPG Shipping & Technology	Gas to Liquids / NGLs		

GASTECH 2017 CONFERENCE CALL FOR PAPERS – THE COMPLETE GUIDE TO HOW THE PROCESS WORKS

WHAT ARE THE TOPICS FOR CONSIDERATION WHEN I SUBMIT MY PAPER?

While the conference will continue to showcase a mix of commercial and technical streams, the Governing Body have made the decision to expand the number of technical papers to reflect the wider needs to the global gas & LNG industry's needs.

COMMERCIAL STREAM

THE FUTURE FOR GAS IN THE NEW DAWN OF TIGHTER ECONOMICS AND LOWER CARBON EMISSIONS

Impacts of COP21 Paris Agreement – Key 'Game Changers' Emerging?

How can Gas Better Compete Against Coal, Renewables & Nuclear?

Market Outlook for Gas & LNG – Key Growth Markets

Future Role for Gas & LNG in Transport – Commercial Updates

Commercial Outlook for Fuel Cell & Smart Grid Technology

CONTRACTING, PRICING & TRADING OF GAS & LNG

Impacts of Lower Prices, Increased Competition and a Globalised LNG Market

Flexibility in Contracting & Developing New Contracts

Role of Shipping & Brokers in Global Trade Activity

The Future Dynamic of Pricing Agreements: A Buyer's Market for How Long...?

GAS & LNG PROJECT PROGRESS & UPDATES

Projects at New & Pre-Production Stage

Gas Pipelines: Planned & Proposed

Emerging & Innovative Projects inc. Floating LNG

Cost Efficiency Across the Project Value Chain

NEW FRONTIERS, OPPORTUNITIES & INVESTMENTS IN PROJECTS

Reducing regulatory risks to stimulate long-term investment in Gas & LNG projects: can it happen?

Global Regulatory Changes & Impacts – including National Policies

Methods of Equity & Innovative Financing Models

Attracting Investment in Lean, Competitive Times
